

*Don't Take Any More Excuses...
Let the AP Notify Your Late Paying Customers.*

Automated Calling for Disconnect Notices

Like most service providers, you are sure to have a group of customers who regularly make an appearance on your monthly disconnect for non-payment list. The Automated Notification feature of Wake Up PLUS is used by companies across the country to automatically call and notify subscribers of pending disconnect for non-payment.

Improves Company Productivity

- Reduces staff time spent calling subscribers about past due balances.
- Improves cash flow because customers pay in a timelier manner.
- Records statistics for your record of reasonable attempt to contact the subscriber.

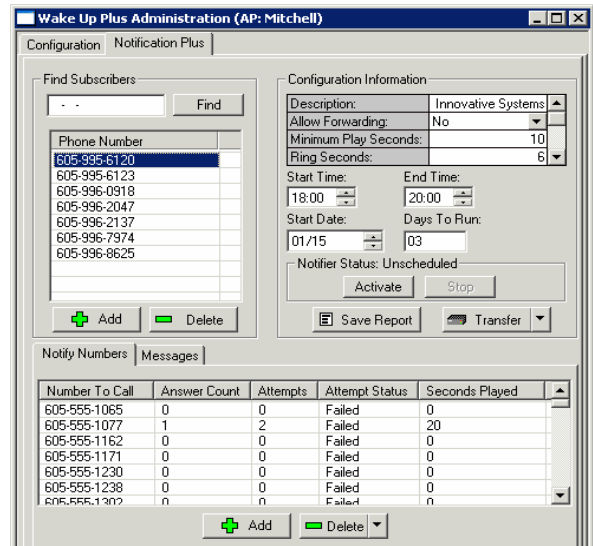

"We find that we often call many of the same people each month and they seem to wait to pay their bill until they get that call from us. Our Customer Service Representatives are absolutely thrilled with the automated service and believe that we are seeing better payment response as a result of the automated calling versus the personal calls."

Report Generation Capability

Statistics are kept for each call attempt so you know if the call was answered and how much of the recording was listened to - giving you documentation of your reasonable attempt to contact the customer.

Quick & Simple Program Set-Up

- Load Excel List of Calling Numbers Into the AP Administration Center (APAC).
- Record Your Notification Message.
- Enter Your Calling Start and End Times.
- Enter the Quantity of Attempts Call Per Number.
- Let the AP Do the Rest!

Sell To Other Businesses

- Target Businesses That do Monthly Billing
- Bill Businesses on Per Use or Monthly Basis
- Include Service in Premium Business Bundle
- Call Completion/Attempt Report Can be Included With the Service
- Long Distance Call Notification is Available to Expand Your Potential Revenue and Customer Base*.

* Long Distance Calling Requires an Additional License and AIN.

Traditional Wake Up & Reminder Service

Of course, Wake Up PLUS can also be used for the traditional wake up and reminder calls including recurring wake up calls, one time reminders, and recurring reminders.

Help your customers stay organized – Wake Up PLUS does more than offer wake up calls; it helps implement a reminder service including customized personal message capability.

Subscribers Can Schedule Up To 5 Wake Up Or Reminder Calls Per Day.
