

Innovative Systems is offering a new flexible Conditional Access/Digital Rights Management (CA/DRM) system. This new CA/DRM solution is powered by SecureTV, Inc. (<http://www.securetv.tv/>). This partnership brings a new competitive offering to the IPTV market providing our IPTV customers more options.

The InnoCryption is an all-inclusive CA/DRM platform for IPTV & HLS through one user interface reducing staff time to set up, troubleshoot, and support.

Innovative Systems continues to simplify IPTV and HLS providing our customers with one platform, one solution, one support call to make your customers' experience better, and make your staff's time more productive.

Products:
