

Web Portal

The Web Portal allows subscribers a webpage interface for their essential telephony services. This can be an anchor for your subscriber's wireline service and can include subscriber control for Innovative Systems IPTV Middleware customers.

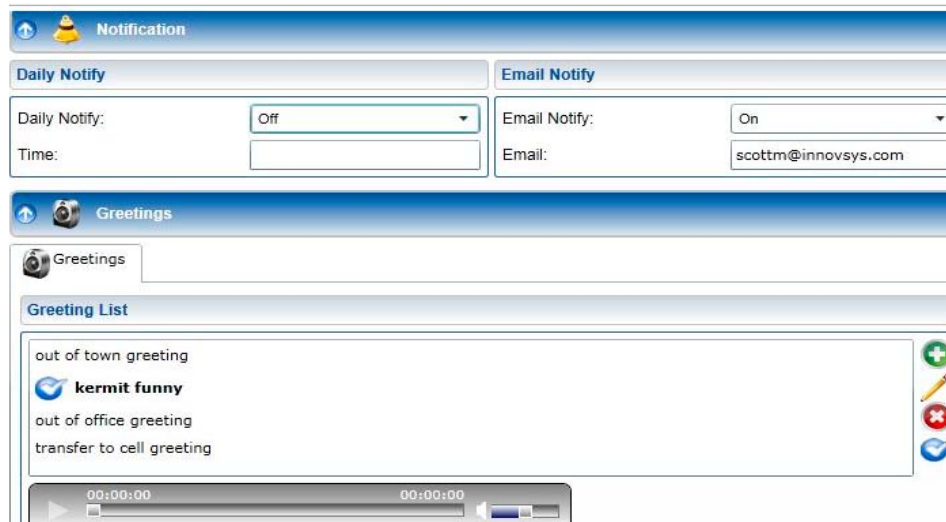

Web-page Interface:

- Subscribers have control over their enhanced services 24/7
- Reduce support calls for service settings
- Promote your brand
- Built-in redundant Web Servers

Subscriber Self Service

From the Web Portal, your customers can delete, play or save Voice Mail messages without having to pick up the phone. They can also change their greetings and where they want their messages delivered.

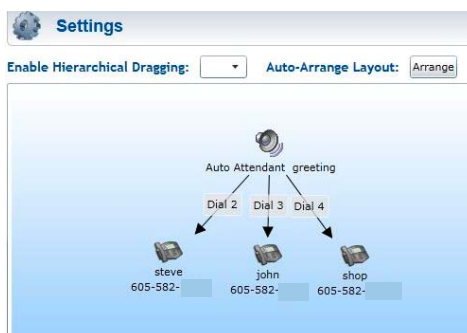

SMB Feature Control

The Web Portal adds value for your small business customer with Unified Messaging, Single Number Service, Notify Plus, Auto Attendant, Account Code and On Demand Conferencing.

Services Supported by the Web Portal

- Unified Messaging
- Auto Attendant
- On Demand Conferencing
- Terminating Call Manager/DND

- Single Number
- Originating Call Manager
- Account Code Plus
- Notify Plus
- IS IPTV Video (My TV tab)

Key Administrative Features
