

Staking & Mapping User Meeting
February 8-10, 2022

Increase Productivity. Improve Efficiency.

eMap Current/Future Functionality and Integration – *Presented by Corey Beyer, Innovative Systems*
Join Corey as he will explain how eMap works, current utilization, and the future holds. eMap not only works in conjunction with Mapkit, it integrates with other eLation project as well. Tune in to find out which products integrate with eMap and how that functionality works.
10:00-10:45 am CST Tuesday, February 8, 2022 – [Click here to register.](#)

Mapping Integration I (Locates) – *Presented by Tate Larson, Innovative Systems*
Join us in discussing how the locate system program within eLation can make your locating process more efficient.
2:00-2:30 pm CST Tuesday, February 8, 2022 – [Click here to register.](#)

Mapping Support Resources – *Presented by Tom Totton, Innovative Systems*
Check out this session to learn more about the User Feedback Portal as well as what we are currently working on and plan to add to our products. Additionally, we will discuss plans for replacing user manuals with an online knowledge base available through Halo.
3:00-3:30 pm CST Tuesday, February 8, 2022 – [Click here to register.](#)

Staking: Front to Back – *Presented by Don Voeltz, Innovative Systems*
This session will cover how to use all the tools in Mapkit and eMap to maximize your time when staking both new and existing areas.
10:00-10:45 am CST Wednesday, February 9, 2022 – [Click here to register.](#)

Mapping Integration II (Fiber Buildout) – *Presented by Tate Larson, Innovative System*
With the continuously fast-paced demand for fiber installation, follow along in this session to see how Fiber Buildout can help this endeavor be easier for your company.
2:00-2:30 pm CST Wednesday, February 9, 2022 – [Click here to register.](#)

Mapping Advanced Search and Reports – *Presented by Neil Bowman, Innovative Systems*
This session will show the methods of reporting in the eLation Mapping software from all the programs. Negotiating reports from Advanced Search, canned reports, and application specific reports with filtering the results to a pinpoint, needed information will be an asset to your data inquiries.
3:00-3:30 pm CST Wednesday, February 9, 2022 – [Click here to register.](#)

FCC Reports – *Presented by Neil Bowman, Innovative Systems*
This session will show the methods of reporting in the eLation software for various FCC required reports and how to track that data year to year. This will also cover the upgrade to 2020 census blocks for the next submission of the 477.
10:00-10:30 am CST Thursday, February 10, 2022 – [Click here to register.](#)

Did You Know – *Presented by Tom Totton, Innovative Systems*
The “Junk Drawer Jam Session Catch-All” will cover various Mapping features that are either less known or have been added in the last year that can make your user experience more pleasant.
3:00-3:30 pm CST Thursday, February 10, 2022 – [Click here to register.](#)
