

TCM Call Screener

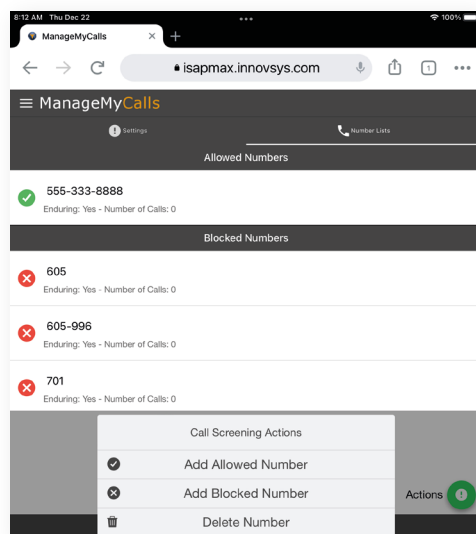

Intelligent Call Screening

- Defeats RoboCalls
- Remembers your friends from Out of Area
- Includes Do Not Disturb service
- Service Provider can add Blocked and Allowed numbers for Subscribers

Let the company with nearly 20 years of experience in Call Screening rid your customers of these telemarketers!

How Does It Work?

TCM allows local calls to complete without intercepting them. When telemarketers do call, they hear the announcement, "The number you have reached does not accept calls from Telemarketers. If you are a Telemarketer, please add this number to your Do Not Call list and hang up now. Otherwise, please press '1' or stay on the line." Regular long distance callers will hear the announcement the first time they call, and then the service 'learns' that they are an accepted caller.

Subscribers Can Manage Allowed List

Once a caller's number has been allowed, TCM will recognize that number, and it will not be challenged again.

Trunk Group Screening Support

TCM can be configured to block Caller ID spoofing of local numbers that originate outside the local network.

Other Screening Options

- Route to Voicemail
- Private Caller Acceptance option
- Since live telemarketing callers need to press "1" to complete the call, automated dialers will merely timeout without ever ringing the subscriber's phone.
- The Global Blocking list, when enabled, automatically updates from other subscribers' Blocked Lists so that everyone who subscribes can benefit.
- Supports business call screening

Web Portal Customer Care

With the new HTML5 format, subscribers can manage their allowed / blocked lists and set up Do Not Disturb schedules.
